Experience & Education

Certification: Full Stack Web Development

CareerFoundry, *January 2023 – August 2023*

Graduated from CareerFoundry's bootcamp with proficiency in full stack web development, covering technologies like HTML, CSS, JavaScript, React, and Node.js. The hands-on curriculum resulted in dynamic web applications, highlighting both front-end design and back-end expertise.

Operations and Logistics Assistant Manager

Dega-Auto Luxury Cars, *May 2018 – Current*

Managed logistics across Europe, coordinating drivers for timely delivery of 40+ luxury vehicles. Adapted to evolving client demands, ensuring high standards of vehicle maintenance and readiness. Expertly communicated contract and payment details to diverse clientele.

Bachelor of Business Administrations (B.B.A): Finance

Georgia State University, *May 2017-May 2021*

At Georgia State University, I mastered financial analysis, data analytics, and strategic planning, integrating web development logic. I studied FinTech and global portfolio management, blending tech with finance. As the Academic Chair of Alpha Epsilon Pi, I demonstrated leadership and teamwork.
